DEDICATED GOVERNMENT SOLUTIONS

Stanley's government team offers the necessary expertise to customize enterprise-wide solutions for your integrated physical security needs. Stanley designs, builds, integrates and services your total security solution. With solutions ranging from a wide array of mechanical security devices, entrance systems, personal safety devices and locking hardware to sophisticated electronic technologies such as smartcards, biometrics, iris recognition, threat recognition and fiber optic perimeter protection, we're prepared to meet your needs today as well as your evolving requirements in the future.

- **Facility Planning & Analysis:** In-depth research and proactive system recommendations encompassing HSPD12, risk analysis, asset management, information exchange, system specification, facility layout and code compliance.
- **Design & Engineering:** Our industry leading staff of design and engineering experts can integrate the most complex enterprise-wide solutions.
- **Software Development:** Intelligent, efficient software packages that are custom designed and can be seamlessly integrated to existing databases creating a single, easy-to-use system.
- **Solution Financing:** Our comprehensive financing program allows you to arrange payments that match your budget schedule.
- **Project Management:** A single point-of-contact program manager for each project handles all of your questions, services and requests.
- **System Installation:** On-site coordination with other trades during the construction phase to completely install, test, commission and turn over a functional and fully integrated security system.
- **System Management:** Customized service contracts including database maintenance, software upgrades, issuance of employee badges or access control cards, system reporting, command center management and nationwide field support.

PROVEN TRACK RECORD

Stanley has been doing business with the Government for nearly a century. Our proud 160 year history as a U.S. based company and as a supplier of quality services and products to the U.S. government will continue for many years to come. Over the past decade, Stanley has created a streamlined team of security related companies providing unprecedented capabilities and leadership. The vast resources and experience of this group have translated into highly successful projects for numerous government applications including courthouses, postal buildings, department of defense detention centers, VA hospitals and border control stations. No matter what your environment and no matter what your need, you can trust Stanley Security Solutions to provide the kind of support you would expect from a leader.

UNPARALLELED SERVICE CAPABILITIES

Nationwide coverage throughout the United States is where Stanley excels. We have been servicing national organizations for many years and have a direct service network unparalleled in the security industry. Unlike other providers, our expert technicians are employed, trained and managed within our own corporation. Our nationwide customer service centers are manned 24 hours a day with knowledgeable professionals prepared to give you immediate resolution on any matter. From design and installation to technical support and billing inquiries... wherever you need us, we'll be there.

HSPD12 EXPERTISE

Stanley Security Solutions understands the critical issues facing government facilities and is a key player in the implementation planning for HSPD12 and smartcard requirements. Our Chief Technical Officer participated in the PAIIWG committee which developed the Technical Implementation Guideline (TIG) directing smartcard implementation for HSPD12. Stanley has implemented smartcard pilots for several agencies leading up to the issuance of HSPD12. We are your consultative experts when it comes to HSPD12. Our team can work with yours in determining how these HSPD12 requirements apply to your facility and what changes must be made to your security environment. Let us help you design a system to meet the implementation guideline in your facility.

ANSWERING THE CALL

Security is the most important issue facing any government facility. While the physical requirements in every area of security have dramatically increased, room for error has all but disappeared. In response to this heightened level of demand, Stanley Security Solutions has created a Washington, D.C. based security team capable of responding to a much more sophisticated threat like no other security provider can. Understanding the unique and complex needs of government facilities, we're ready to bring customized, turn-key solutions to your door with intelligent thinking and innovative products...all backed by Stanley's legendary quality and service.
