

What's Best for You?

STANLEY[®]

Security Solutions

PROTECTING WHAT'S IMPORTANT TO YOU™

1

Locally Managed Access

Access control is more than just keeping the bad guys out...it's about letting the right people in at the right time and in the right areas. Stanley Access Control systems let you locally manage the movement of people within your building to help protect your employees, property and company information.

Stanley's Locally Managed Access provides:

- Controlled access to secure areas
- Activity reports for review and auditing
- Photo ID Badging and Visitor Entry integration
- Integration with video surveillance and intrusion protection
- Software-based and web-based managed applications
- Compatible with proximity cards, smart cards and biometric technologies

CONTROL FOR YOU

Stanley has the expertise to supply superior, cost-effective access control solutions that meet your local needs of controlled access.

- *Stanley's comprehensive resources are available year-round when you need it*
- *Convenience and security from user friendly, intuitive technologies*
- *Award-Winning Service & Technology Provider*
- *Scalable solutions that will grow with you*

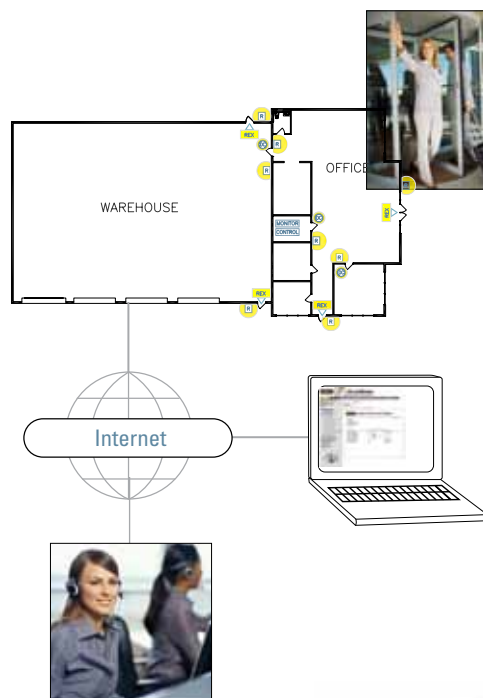

2 Stanley eAccessManager

Stanley's eAccessManager gives you all the benefits of an access control system without the requirement of managing the system yourself. eAccessManager is an advanced web-based Stanley managed access control service that lets you focus on your business while we perform all of the tasks of administering your access control system. Whether it is a single facility or multiple locations, Stanley can manage all of your access control system requirements.

Stanley's eAccessManager Provides:

- Complete management of your access control needs by Stanley's Access Control Specialists
- Management of your door lock schedules, including holiday schedules
- Administration of your card holder database, including Photo ID Badging
- Secure web-based application, that eliminates the need for software
- Online activity reports to keep you in the know
- Integration with intrusion alarm databases for improved security and efficiency
- 24-hour integrated Visitor Entry services

WE CONTROL IT YOUR WAY

Stanley has your card access administration needs under control. Save time and money with our real time, online access control services.

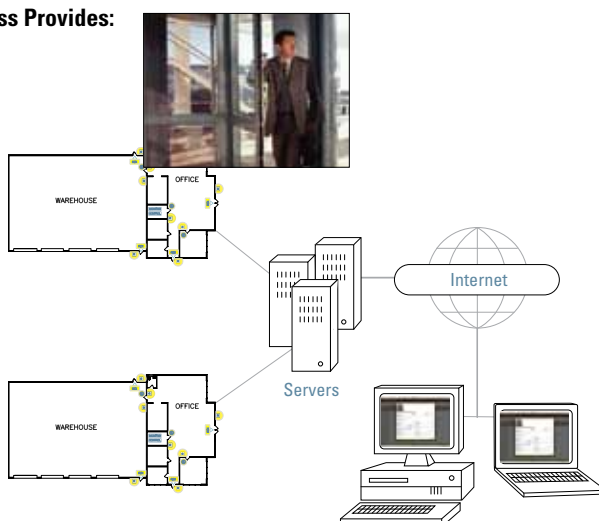

- *Stanley's comprehensive resources take care of your access control needs day and night, year-round*
- *A cost effective alternative to self-administered, software-based access control*
- *A flexible solution that gives you control and information when you want it*
- *An award-winning technology and service provider that allows you to focus on your customers and business*

3 Enterprise Managed Access

Stanley's comprehensive access control solutions are customized for you, whether it is one location or multiple locations across the nation or globe. Stanley access control experts can design and help you implement an enterprise level access control program.

Stanley's Enterprise Managed Access Provides:

- Single platform solutions that integrate multiple databases
- Advanced software-based managed applications
- Networked IP compatible solutions
- Centralized command and control capabilities for comprehensive security programs
- Scalable and integrated solutions for system flexibility & growth
- Expert design, application, installation and support by Stanley access specialists

COMMAND AND CONTROL

Partnering with Stanley lets you take command and control of your enterprise access control solution.

- *Enterprise managed solutions for seamless systems integration*
- *Comprehensive project planning, application engineering, software deployment, project management and embedded services*
- *An award-winning technology partner for advanced custom solutions*
- *A powerful and effective means for taking command of your security risks and responsibilities*

Stanley is the Best Fit for You

At Stanley, we offer you the “best fit” for all of your security needs whether it is intrusion protection, fire detection, video surveillance, access control or systems integration—we have the security solutions you need.
