

Help Protect Your Home Healthcare Employees & Contractors

Personal Safety & Security Response Solution
Monitored by STANLEY Security

Safety of healthcare providers is a leading priority for security teams. Wherever your associates go, whether it be on a medical campus, walking to their vehicles alone, or within residential environments for home healthcare providers, STANLEY Guard allows them to carry Personal Safety protection with them through their mobile phone or wearable alert button.

Help Protect & Provide Peace of Mind to Your Associates. STANLEY Guard is Perfect for:

- ▼ In-Home Nursing Staff
- ▼ Home Health Aides (HHA) and Care Givers
- ▼ Hospice Workers
- ▼ Doctors Making Home Visits
- ▼ Case Managers
- ▼ Field Representatives, Trainers and Supervisors

AWARD WINNING: 2016 SIA NEW PRODUCT OF THE YEAR

Operate an Enterprise-Wide Personal Safety Solution With or Without Dedicated Monitoring Staff

1 PERSONAL SAFETY

Home healthcare worker activates alert with the STANLEY Guard Personal Safety app by shaking their phone or pressing a wearable button.

2 COMMAND CENTER

Experienced STANLEY monitoring specialists or your security operations center receives the alert, along with the device's GPS location, audio/video clips, and user's profile info and verifies the emergency.

3 SECURITY RESPONSE

The monitoring center dispatches local emergency responders or one of your security officers through the Security Response mobile app to respond to the incident and gather evidence.

Comprehensive Personal Safety Solution Provides:

Employee Personal Safety

An employee can quickly request help in the event of an emergency by shaking their phone or pressing a wearable panic button. The integrated app instantly records audio, video and GPS location, which is pushed to the cloud to secure storage and easy access.

Incident Monitoring

Emergency alerts with video & audio clips of the incident are sent to STANLEY monitoring centers or your internal security operations center (SOC). The phone's GPS location provides the location of your employee.

Flexible Response Options

Private Security Guards or Police Officers can be dispatched depending on your organization's needs and capabilities. Responders can receive audio/video clips, GPS location and employee profile and may use the Security Response app to document event evidence.

Compliance

STANLEY Guard may help organizations in their compliance efforts with OSHA 3148-04R 2015 guideline on Workplace Violence Prevention in hospitals, residential treatment facilities, community care and field work settings.
