

STANLEY Indoor Video Alarm Verification for Small and Medium Businesses

STANLEY Indoor Video Alarm Verification combines the latest in digital security technology with 24/7 professional monitoring and mobile access to live / recorded video on your smart phone to potentially increase the likelihood of:

- ▼ Priority Police Response
- ▼ Decreased Business Losses and Increased Apprehension Rates
- ▼ Reduced Disruption to Your Business

Our affordable yet technologically-advanced package solutions ensure an ideal fit for your business and are easy to use and maintain. Each Indoor package includes:

The Latest Technology

Includes the latest digital technology in high-resolution IP cameras and flexible video storage options with both wired and wireless connectivity to meet your unique business needs.

Professional Monitoring

Highly-trained security professionals from our monitoring center review alarm details and video evidence and may request priority police dispatch to potentially reduce your business losses.

Mobile App

The secured, mobile app allows you to view an alarm event while in progress or to check up on your employees and facilities—24 hours a day, from anywhere in the world.

SOLUTIONS THAT FIT YOUR BUSINESS

At **STANLEY**, we offer you the right solution for your specific business needs.

STANLEY Indoor Video Alarm Verification packages are designed to integrate seamlessly with your existing intrusion system to help ensure priority police response for decreased business losses.

If you do not currently have an intrusion system, STANLEY Security experts will design, install, service and monitor a flexible, economic solution to meet your building security needs.
